

A NEW VIEW OF GOD AND ITS EFFECT ON WELL-BEING

a free lecture with

Phillip Hockley, CS

In the early 1990s, a fall that badly injured his spine started a seven-year downward spiral of ill health for Phillip. By 1999, after trying every alternative and spiritual healing method without any cure, he was registered as physically handicapped.

Much against his own better judgment, he was attracted to attend his first ever Christian Science lecture – and what happened was truly transforming. Not only was he healed at that event, but more importantly he was healed of his resistance to the message of the Bible, a message telling us of God’s great love for each one of us.

He is now committed to sharing with other seekers his experience of God’s promise – that we can ALL feel and live divine love, a heavenly love, here and now. Come and hear more – a warm welcome awaits you!

***TUESDAY, OCTOBER 3RD, 2017
AT 7:30 PM***

**East York Civic Centre,
850 COXWELL AVENUE, TORONTO M4C 5R1**

*Children’s room & free parking are available
